

## BOY BAYONETED BY THE MARINES

A Court of Inquiry Ordered in the Case.

### BOYCOTT AGAINST STREET R'W'Y

Labor Union Asks Navy-Yard Force Not to Ride on It—United States District Attorney Allan Asks That the Boy Burglars Be Released With a Whipping.

(Special Dispatch to The Times.)  
NORFOLK, Va., Feb. 26.—The bayonet of young Samuel Meads by Private Hassell of the Marine Guard, at the Norfolk navy-yard, will be investigated by a Court of Inquiry, which will sit to-morrow. The board is appointed by Admiral Cotton, commanding at the request of Mr. R. A. Meads, father of the boy who received a severe scalp wound from the bayonet of Hassell. The Marines say that young Meads did not move out of the way when ordered to do so. When they were endeavoring to capture a marine who was in citizen's dress endeavoring to escape from the yard, but abused them instead, and that Hassell stabbed him unintentionally. There is an indignation considerable feeling over the matter.

A BOYCOTT.  
The Central Labor Union has declared a boycott against the Portsmouth Street Railway.  
The cause is the discharge by the company of five members of the union, and refusing to recognize the organization. The trouble has been brewing for some time. The labor union is expected to ask the some 2,500 workmen at the Norfolk navy-yard, the principal patrons of the line, not to travel on it.

Some 200 men have been laid off at the navy-yard because of the exhaustion of an appropriation.

TO BE WHIPPED.  
United States District Attorney Allan has asked the department to order the release of the three little black boys who robbed the Cape Charles postoffice, upon condition that the parents, when they can be located, be whipped. The compliance of the department is anticipated.

### A COUNCILMAN RESIGNS.

The Roanoke Blues Decide to Attend the Inauguration.

(Special Dispatch to The Times.)  
ROANOKE, Va., Feb. 26.—Councilman J. E. Newton, of the Fifth Ward, has resigned to accept the position of assessor of personal property.  
The Roanoke Blues decided to-night to attend the inauguration, and will leave Saturday afternoon for the Shenandoah Division for the Capital. They will carry forty men.

### Killed by the Train.

(Special Dispatch to The Times.)  
LYNCHBURG, Va., February 26.—Early this morning a north-bound passenger train on the Southern Railroad struck and instantly killed William Hall, a well-known carpenter of the city. Hall was going home at the time of the accident. His head and shoulders were badly crushed.

### PERSONAL AND GENERAL.

Interesting Facts About Richmond's Citizens and Other Matters.

Mr. Eugene J. Ballenot, of Newport News, is in the city.

Miss Bena Fitzgerald has left to visit friends at the University of Virginia.

The Golden Rule, Y. W. C. T. U. will meet this afternoon at No. 802 East Leigh Street.

Mr. W. A. Law, president of the Central National Bank of Spartanburg, S. C., is in the city.

Judge Paul, wife and daughter, who have been here on a visit, returned to Harrisonburg yesterday.

Dr. R. H. Pitt, of the Religious Herald, and his son, Robert, have gone to Washington, D. C., for a few days.

Mr. Samuel Proskauer is again out after a three weeks' confinement to his house in consequence of an injury to his left leg.

Mr. Isaac Michael has been presented by Richmond City Lodge, No. 50, of Birth Abraham, with a pair of gold spectacles.

Mr. R. C. Traylor, of the Singer Manufacturing Co., is still confined to his room at his residence, No. 812 West 34th Street.

Dr. E. E. Bomar, of the Baptist Foreign Mission Board, who has been west in the interest of foreign missions, has returned to the city.

Mr. John M. Walker arrived in Richmond.

### CATARH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effective Cure for It.

Catarh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, sickle appetite, nervousness and a general played-out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine, can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booker, Richmond, Ill., writes: "Catarrh is a local condition, resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat, causes the stomach catarrh, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of the stomach without cure, but to-day I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I can now find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation, as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

## Are You Going to the Inauguration?

—to the first great pageant of the twentieth century, where representative of all people will be present in array suitably attired as worthy of the great object of the brightest people of the present era. If you are thinking of attending, then you must be seasonably dressed, and the best is none too good for you as representatives of the prosperous city of Richmond, and it is for that reason, as well as to cope with your demands, that we have stocked our store with as handsome and stylish garments as ever came to this city. The under-mentioned items are but a ciphers to the innumerable and varied styles in Spring Suits and Skirts we have to show, and as to prices, they are not to be compared anywhere in town. We have a neat and stylish suit, well made and lined, for SEVEN NINETY-EIGHT, and from that prices range up gradually to Thirty-five Dollars—a model creation that in big cities would fetch at least a fifty-dollar bill. In Skirts, we have them in walking lengths at TWO NINETY-EIGHT, and all the way up to Twenty Dollars for one of the new flare Duck Skirts in the finest of imported cloth. If you do not need a suit perhaps one of the new style Silk Waists in some delicate shading will attract you, especially as the price for a "really nobby thing in waists" can be had for THREE NINETY-EIGHT.

**Suits.** Nobby Bolero Elton Suits, of best quality black Venetian, jacket trimmed in silk stitched band, fancy braid and buttons, lined in heavy taffeta, skirt cut in the new flare, trimmed in silk bands.... \$15

**Very Neat Bolero Suit**, of imported homespun, jacket has the new collar, new sleeve, is trimmed in fancy braid and buttons, and silk-lined skirts, a nine-gore flare, lined in silk percale.... \$18

**Double-Breasted Elton Suit**, of excellent quality Venetian, new collar and revers formed of tucked taffeta and lined in heavy, new sleeve, entire jacket lined in heavy taffeta, flounced skirt lined in extra quality percale.... \$20

**Coats.** New Box Coat, of good quality throughout, velvet collar, L'Aiglon cuff.... \$5.00

**Shaped Box Coat**, of imported Covert, velvet collar, L'Aiglon cuff.... \$7.50

**Waists.** Taffeta Silk Waist, new pink effect, on tight-fitting lining, many colors and black, hemstitched back and front, bishop sleeves, high turn-over collar and gilt buttons.... \$3.98

**New Style Waist**, in solid colors and delicate shadings, prettily trimmed in gilt braid cord back and front, bishop sleeves and small tight cuff.... \$5.75

**KAUFMANN & CO., Fourth and Broad Streets.**

## CARNIVAL FUND GROWING SLOWLY

Business Men are Urged to be Substantial in Their Patriotism.

The citizens at large have probably never been more interested in a popular movement than seems apparent in reference to the Carnival to be given next fall.

The Finance Committee, however, in the persons of the sub-committees, have not met with the reception that they expected from the merchants, upon whom they have called for subscriptions to the guarantee fund. The gentlemen of the committees feel that more unanimity should be displayed by the business men, for the Carnival can do nothing but good to all concerned. The Mardi Gras is pointed out as an example, and the various expositions that are given throughout the country are also referred to, and above all, the Carnival of last year in this city is mentioned.

These annual affairs bring people to the city and the people naturally bring business. President Meyer and the gentlemen on the Finance Committee urge that the canvassers be given the proper reception and the welcome that they are entitled to in the patriotic movement in which they are engaged. It is no personal matter with the canvassers. They are putting their time and labor in the matter gratis, and all who wish to help the city may do so when they are called upon.

The guarantee fund, however, but not as rapidly as it should. Those who desire to subscribe are not expected to pay the amount they intend to give at this time, but are expected to simply place their names on the list. The money will not be needed before June.

"Let business men subscribe," said President Meyer last night, "and place his name on the guarantee list."

**Y. M. H. A. Baseball Club.**

Mr. Ivan C. Mayer, who gained his baseball experience as manager of the famous McCabe's Tigers of '97 and '98, has been elected manager of the newly organized Y. M. H. A. baseball team; Mr. Harry Oppenheimer, assistant manager, and Mr. Lewis Held acting captain.

The schedule will include games with some of the schools and colleges of Virginia, as also some of the best local amateurs. Teams desiring to schedule games of the committee should apply to the Y. M. H. A. Baseball Club, No. 520 East Broad Street, Richmond, Va.

**Seats in Bijou Aisles.**

A Sub-committee on Grounds and Buildings, consisting of Messrs. Harman, Adams and Ferriter, met at the Bijou Theatre yesterday evening and inquired into the alleged blocking of the aisles with seats. They will formulate an ordinance on the subject for the consideration of the Council.

**Export Tobacco.**

On Monday nearly one hundred thousand pounds of tobacco, manufactured into plug, were shipped from this city.

It went to Cuba, England, South Africa, Australia and to other foreign countries. The demand for plug tobacco is greater than it has been in a long time.

**Has Recovered.**

Dr. John N. Uphur has recovered from his protracted illness and has resumed his professional work.

**Trouble Over the Debate.**

A committee composed of Messrs. Lipscomb, McCabe, and Phelps came from Ashland yesterday afternoon and waited upon President Boatwright in regard to the joint debate between Richmond College and Randolph-Macon.

The committee and their statement is withheld by those in authority, and the question of Mr. Hartman's participation is still in doubt.

**College Loses Hope of Claim.**

Dr. Boatwright has been in Washington for the past week looking after the college damage claim before Congress. Things looked rather auspicious during the latter part of last week, but a communication from Congressman Lamb affirms that it is almost certain that the college bill will fail and the college must be disappointed again.

**Company B to Drill.**

The Walker Light Guard will have a full-dress drill at the armory to-night.

## METHODS TOO LAX SAYS DR. KOLLOCK

The Tri-State President Advocates Radical Changes.

### THE TRUE TESTS OF FITNESS.

The Annual Address of the President of the Tri-State Medical Association Causes a Stir—Work of the First Day of the Session.

The attack made by President Kollock on the present methods of educating and preparing the pupils for the practice of medicine, was the feature of the first day's session of the Tri-State Medical Association, which opened at the Hotel Richmond last night. The present methods used by the colleges and State examining boards did not at all tell the fitness of the would-be practitioner and that not enough attention was paid to the education of the student.

The opening session was called to order by President Kollock. The session will continue for three days.

The invocation was made by Rev. Dr. J. Y. Downman, rector of All Saints Church, and the address of welcome by Attorney General Montague and Dr. J. S. Wellford, the former on behalf of the State and the latter on behalf of the medical profession.

Mr. Montague dwelt upon the great and important part played by the medical profession in the life of a community, and welcomed the visitors from the two Carolinas to Virginia, speaking of the close ties binding the three States.

VIRGINIA AND CAROLINAS.  
Dr. Wellford, in his remarks, laid particular stress on the ties of blood and the common interests of the Carolinas and Virginia, and pointed out how harmony and united efforts must necessarily result in the advancement of the common good.

Dr. Wellford bade all a hearty welcome to the Old Dominion and to Richmond.

Dr. H. A. Royster, of Raleigh, N. C., in a few appropriate remarks, responded to the address of Virginia and accepted it on behalf of the Carolinas.

**WANTS RADICAL CHANGE.**  
President Kollock then made his annual address and began by advocating the abolition of the president's address, declaring that time could be put to a more profitable use. Dr. Kollock then attacked the existing educational requirements of the practitioner. The speaker declared that a high standard should be required of both teacher and pupil and that particular attention should be paid to the ethical instruction received by the pupil, and the standard of the teacher.

Dr. Kollock declared that the medical schools used in the selection of faculties for medical schools was lax, and that very frequently it became "a more or less family affair."

"The vacancy should be widely advertised, and the candidates should be made to undergo a most thorough test, then men less pretensions, though more meritorious, could be secured—men whose only fault is lack of pluck."

**NO TEST AT ALL.**

Dr. Kollock also paid his respects to State Examining Boards. He declared that the methods now employed in the examination of students were too haphazard, and that an oral examination and a demonstration of ability in actual practice should be required of the student.

The speaker also advocated the improvement of sanitary conditions.

In closing his address, Dr. Kollock made a strong appeal for united action among the part of physicians to fight the spread of tuberculosis, declaring that more deaths were from tuberculosis than from any other disease, and that the combined efforts of the medical profession and the public were needed to combat it.

He made a strong appeal for legislation preventing the spread of tuberculosis, citing statistics to show its rapid spread.

The delivering of the President's address the Association went into executive session and reports were presented.

**PAPER PRESENTED.**

Following the reports a paper on "State Medicine" was presented by Dr. James Evans, of Florence, S. C., and in the discussion Dr. H. A. Royster, of Raleigh, N. C., and Von Bergen, of Asheville, N. C., participated.

**FOR CLEANER CITIES.**

In the course of his very able paper on "State Medicine," Dr. James Evans said: "The powers of resistance in most persons render them insusceptible to disease, notwithstanding the direct exposure to contagious and considerable periods of time. What impairs vitality may be considered the assisting or contributing cause of any disease and inasmuch as they were indirect and preventable, it is the duty of the State to take measures to prevent it. The influence of dampness arising from an improperly drained sub-soil on the health of the people, they would require streets to be paved with asphalt and the foundations of dwellings covered with some material that was impervious to moisture, the mortality from all diseases, and especially consumption would be notably diminished. These pavements are of inestimable value, likewise in facilitating the collection and removal of dirt and dust from the streets and vastly curtail the amount of respiratory impurities floating in the atmosphere of our cities."

Dr. H. A. Royster, of Raleigh, N. C., presented a paper on "Antiseptic Surgery," and the Association then adjourned to attend a clinic at the University College of Medicine.

Dr. Von Bergen, of Asheville, N. C., also read a paper on "Have we any new treatment for general septic infection?"

**EXECUTIVE COMMITTEE SESSION.**

After the regular session of the Association had adjourned the Executive Committee met and formulated a report which will be presented to the Association to-day. The committee is composed of the following: President—Dr. J. N. Uphur, J. S. Wellford and W. P. Drewry; from North Carolina—Dr. J. A. Burroughs, J. H. Marsh and W. H. Cobb; from South Carolina—Dr. Manning Sims, W. P. Timmerman and James Evans.

It is generally accepted that a Virginian will be the next president of the Association, and it is probable that Asheville, N. C., will be chosen as the next meeting place.

Last night the local Committee on Entertainment tendered the Association a theatre party at the Bijou, and after the performance the party was entertained at the Westmoreland Club. To-night the Association will be entertained at the Commonwealth and the annual banquet will be served. It is now certain that the convention will be a most successful one.

Those who were elected to membership yesterday were: Dr. Southgate Leigh, of Norfolk; Dr. Louis Wheat, of Richmond; Dr. J. W. Henson, Richmond; Dr. Valentin Talley, of Richmond; Dr. Greer Baughman, Richmond; Dr. Charles R. Rogers, Richmond; and Dr. Ch. von Bergen, Asheville, N. C.

### PLEASED WITH THE BUDGET.

Nearly All the Departments Satisfied—Aldermen to Act.

The budget, which was favorably acted on Monday night by the Common Council and which will receive the consideration of the Board of Aldermen on Friday night, was the topic of conversation at the City Hall yesterday.

While some departments did not get everything they wanted, all recognized that the Finance Committee had done the best it could for everybody, and all seemed satisfied.

The Water Department was well taken care of, and Mr. Bolling, smilingly said he was satisfied. He had hoped for some provision for clearing the water, though. Superintendent Fox, of the public schools, was especially pleased with the appropriation for the enlargement of the Nicholson-Street school building.

The Gas Department was looking serious over the failure to get \$14,000 to extend a 24-inch main from the upper to the lower gas works.

The City Engineer's Department was pleased with \$85,000 worth of sewers, of which \$60,000 goes to Lee District. They had hoped for more for Shockoe Creek.

Superintendent Davis, of the almshouse, had gotten the third ambulance surgeon he asked for, so he was satisfied.

The Health Department will now be able to create the office of Superintendent of Street Cleaning, which has been the Police Board got an additional policeman, but will have to wait for another patrol wagon.

The Fire Department had no complaint to make.

The \$2,800 worth of music in the parks next summer will be enjoyed very much indeed, as was the music provided for the last year.

### THE HOWITZERS' TRIP.

They Will Leave for Washington Saturday Evening.

The Howitzers had a splendid meeting last night. There was an unusually large attendance.

It was decided to accept the offer of the Richmond, Fredericksburg and Potomac Railroad Company for a special coach to be attached to the regular train leaving here at 7:42 P. M. next Saturday, to take the artillerymen to Washington.

About fifty members will go to take part in the parade on inauguration day. The men will appear for the first time in their new helmets.

Several members were received. The Howitzers are in a most flourishing condition.

### Dr. Sweeney's Lecture.

Rev. Dr. Z. T. Sweeney lectured to a crowded house at the Academy of Music last night. The lecture was for the benefit of the West-End Christian Church.

The lecturer was introduced by Rev. Carey E. Morgan. His subject was "Going Up to Jerusalem." The speaker took his audience on a trip from New York to the Holy City. He graphically and eloquently described the countries and the peoples through which he passed.

The lecture consumed two hours, but the audience did not get tired. At the close of the discourse Dr. Sweeney held a brief reception, and many friends greeted him. He will leave to-day for his home in Indiana.

The following comparative statement of gross earnings of the Chesapeake and Ohio Railway for the third week of February has been issued: 1901, \$26,123.65; 1900, \$22,156.81; increase, \$3,966.84.

The three weeks of February, 1901, \$32,033.63; 1900, \$26,590.14; increase, \$5,443.49.

Dr. Kollock also paid his respects to State Examining Boards. He declared that the methods now employed in the examination of students were too haphazard, and that an oral examination and a demonstration of ability in actual practice should be required of the student.

The speaker also advocated the improvement of sanitary conditions.

In closing his address, Dr. Kollock made a strong appeal for united action among the part of physicians to fight the spread of tuberculosis, declaring that more deaths were from tuberculosis than from any other disease, and that the combined efforts of the medical profession and the public were needed to combat it.

He made a strong appeal for legislation preventing the spread of tuberculosis, citing statistics to show its rapid spread.

The delivering of the President's address the Association went into executive session and reports were presented.
